For the Autodesk Government Community

June 2008

It's here ...

Advanced Solutions Inc. is proud to announce our new monthly newsletter with exclusive content developed to benefit your agency. As Advanced Solutions expands into new territories, we like to provide our clients with information about Advanced Solutions, Inc., Autodesk, and "CAD community" events.

Advanced Solutions, Autodesk Government, and DLT Solutions have teamed up to deliver a world class evaluation, purchasing, and implementation strategy for your agency. Solutions include packaged software installation, training, customized support service offerings, and 21 years experience in helping designers improve efficiency and productivity. Here are some examples of common issues we have seen and general resolutions we have implemented:

- Agency Concern:** Shrinking budgets and service-expansion requests mean that government agencies must improve efficiency by unifying certain traditionally separate GIS and CAD functions.
Advanced Solutions Resolution: CAD and GIS information is created, maintained, and shared in a single, unified environment.
- Agency Concern:** Data integration between a variety of data sources is necessary, but costly and cumbersome to manage.
Advanced Solutions Resolution: A complete, open solution that ensures interoperability between Autodesk products, as well as simplified integration of proprietary, legacy, and traditional external data sources.
- Agency Concern:** New technology introduces learning curves that can affect employee productivity.
Advanced Solutions Resolution: Use your trained AutoCAD® workforce to directly maintain a broad variety of geospatial information with precision CAD tools, as well as perform GIS tasks.
- Agency Concern:** The public needs easy access to up-to-date city and county information.
Advanced Solutions Resolution: Web-based applications provide the public with the latest, most accurate information.

AutoCAD LT Software Users Save Up To 64%

If you are an AutoCAD LT software user, you already know how creative and productive you can be with the right Autodesk tool. But what if we told you there are even more powerful solutions - created specifically for design professionals? And what if you could get these solutions at one low price? There are and you can.

Move to AutoCAD 2009 – or the design solution that's right for you – for just \$2,495.

Maybe you've been thinking about moving into 3D. Perhaps you're looking for more robust capabilities to boost your productivity. Or maybe you want to automate some of your more tedious design and detailing tasks. With savings like these, there's never been a better time to make a move. Act now and receive a \$200 training voucher to get up to speed fast. ([Learn More](#))

Autodesk Legacy Promo Offer

There are many advantages to moving to the new AutoCAD 2009 software, or any of the other new Autodesk design solutions, such as keeping your work compatible with your clients and vendors or improving your productivity with new tools. However, the best reason is probably the savings - 40% off with Autodesk Subscription when you act before July 18, 2008.

No matter what your challenge – from facilitating innovation and accelerating new product launches to optimizing global supply chain collaboration – you can get the latest Autodesk software at a significant discount. Contact us and we'll show you all the new ways Autodesk can help you maintain your competitive edge and increase your productivity.

Autodesk Retirement on 2006 Products

AutoCAD 2006 and other Autodesk 2006 software will be retiring on March 13, 2009. To help you make the transition to the 2009 releases, save 20% until July 18, 2008. This discount applies only when you upgrade with Autodesk Subscription.

When you move to an Autodesk 2009 software solution, you'll be able to take advantage of innovative tools, including enhanced 3D design visualization and rendering, advanced customization and network licensing options.

Upgrade to the latest Autodesk 2009 3D software and create, optimize, and validate your ideas before building anything. The sooner you act, the more you save - simply upgrade with Autodesk Subscription. ([Learn More](#))
